A TYPICAL DAY

This is an example of a typical day.
Timetable will be setup daily according to the day's activities.

WORKING METHODOLOGY

The main goal of the camp is for participants to disconnect from their usual routine, change their physical setting (especially after a long year of restrictions), and strengthen their social relationships.

In this context, through the numerous activities that they take part in, students will develop different skills, which are important in determining the individual capacities of leadership and creativity.

Therefore, each activity is preceded by a collective task (such as the discussion of a case, a role-playing game, the inspiration of a video or a song, etc.) as well as a subsequent reflection in order to assess how each participant has experienced the activity.

SUMMER CAMP

KAYAK & PADDLE SURF

A 10 minute walk from the camp is Lake Molina, where Kayak and Paddle Surf take place. There is also a picnic area.

MTB

La Molina offers a wide range of MTB routes of different levels of difficulty. The camp is equipped with state-of-the-art bikes in different sizes.

ARCHERY

Practice the technique of shooting and aiming by means of archery circuits marked inside the forest

SURVIVAL AND ORIENTATION

Hiking is the best way to enjoy the mountains and the surroundings. The camp is close to a wide range of paths and trails, with the possibility of reaching the top in Puigllençada or La Tossa d'Alp.

ZIPLINE

In Molina Parc d'Aventura there are 4 circuits of different difficulty with zip lines above the trees featuring: nets, Tibetan bridges, Tarzan jumps, etc.

CLIMBING

When climbing, students are fully equipped with safety equipment so as to best enjoy the natural rock wall, equipped with two routes adapted to their level.

CAVING AND HORSE RIDING

Spend the day in the fresh air, horse riding at the Hipica de Prullans, just 15 minutes from La Molina.

From the Prullans Horse Riding, we enter the world of caving in caves of different levels of difficulty.

SUMMER CAMP

ECOLAB (RECOVERY ROAD)

Different paths pass through La Molina, which, due to the winter weather, are impassable in the spring.

From the Summer Camp we are aiming to carry out the recovery and reconstruction of the roads that people will use during the summer and autumn.

This involve clearing of roads, construction of bridges, walkways and dams on the river. The target is to add value to high mountain trails and make students aware of the importance of maintaining forests and the natural environment.

TALENT SHOW

Music, theater, cinema, imitations, costumes; anything is worth it if you can show your creativity to your classmates.
